

Inter-Hospital Webinar Series 2022

Held annually in November, World Antimicrobial Awareness Week aims to increase global awareness of antimicrobial resistance and encourage best practices among the public, healthcare workers, and policy makers to prevent the further emergence and spread of antimicrobial resistance.

JOIN OUR EXPERTS TO LEARN MORE ABOUT ANTIMICROBIAL RESISTANCE AND APPROPRIATE ANTIMICROBIAL-PRESCRIBING PRACTICES.

Who should attend: Healthcare Professionals

- Registration is free
- CPE points will be awarded
- Registration will close when maximum capacity is reached
- For any queries, please email training@ncid.sg
